

TOP STARTUP FUNDINGS

For anyone interested in building a startup: here lies the information of the top startups across the globe.

HOW MUCH CAN I EXPECT?

Well, that depends on the field of your startup. On average, biotechnology startups raised the most money, at just under \$8b, and gaming startups raised the least.

PROFIT, PROFIT, PROFIT!

According to a 2022 survey, more than 78% of small business recorded a profit. The thriving economic climate has allowed small business owners to sleep happy with their profit margins.

STARTUP HAVEN

San Francisco, and Silicon Valley in particular, has been a haven for startups. With a total funding in 2014 of 21 billion dollars, it's not secret that Silicon Valley is the place to be for new entrepreneurs.

WHAT TYPE OF FUNDING IS MOST PROFITABLE?

Historically, venture funding has always been the way to go. However, there have been years where seed funding outperformed venture, especially in the more recent years.

PREPARING FOR FAILURE

Unfortunately, starting a business is a risky move with no guarantee to succeed. In fact, about 90% of startups fail completely. Very few startups are successful in the long run
